### REASONS FOR ALLOWANCE

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The reference cited on the PTO-892 discloses an optical disk drive including a demodulator.

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest a demodulator for use in an optical disk drive, comprising: **a sampling circuit configured to sample a wobble signal by using a clock, and to generate a sampled signal; and a viterbi decoder configured to decode an auxiliary recording signal superposed on an optical disk by using a generated reference value and the sampled signal.** (bold language emphasized)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588.
